PART II—Adjustment for Amounts not Attributable to Trade or Business

Use Part II to report the income, gain, or loss from your tax return that's not from a trade or business.

Line 10—Enter the combined amount of income or gain you reported on lines 1 through 8 above that is not from a trade or business.

Line 11—Enter the combined amount of losses or deductions you reported on lines 1 through 8 above that is not from a trade or business. See the definition for trade or business below. Enter as a positive number.

Trade or business—An activity qualifies as a trade or business if your primary purpose for engaging in the activity is for income or profit and you're involved in the activity with continuity and regularity. The facts and circumstances of each case determine if an activity is a trade or business. The regularity of activities and transactions and the production of income are important elements. You don't need to actually make a profit to be in a trade or business as long as you have a profit motive. However, you do need to make ongoing efforts to further the interests of your business.

Line 12—Subtract line 11 from line 10. The resulting figure is your gain or loss that is not from a trade or business. Use this amount in Part III to figure your excess business loss.

Part III—Limitation on Losses

Use Part III to apply the threshold limitation and figure the excess business loss.

Line 14—Add lines 9 and 13. The resulting figure can be a positive or negative number.

Line 16—If the resulting figure on this line is a negative amount, then it is your excess business loss. Although it is a loss, you will report the excess business loss adjustment as a positive number. 740 Filers will enter this amount on Schedule M, line 5 and 740-NP filers will enter this amount on the 740-NP, page 4, line 16. Enter as excess business loss.

Your excess business loss from each year will be treated as a net operating loss carryover. This amount will be entered on the Schedule KNOL.
