Introduction

The following includes 3 ATS test cases. The ATS test cases consist of a PDF copy of a Montana Pass-through Entity Tax return (Form PTE) including various schedules and Montana K-1s. The data submitted for the indicated lines will be determined by the developer. Certain fields will not be provided on the Cases – indicated by a highlight – and a calculated value must be provided. Please don't enter any values on blank lines that have not been highlighted. **If your software does not support both Partnership and S corporation filings, please prepare all three tests for whichever entity type you support (as outlined in your LOI).**

MT DOR testing environment will be available to developers to submit returns for testing: Reject codes, warning messages, communications, acknowledgements, or other development issues. MT DOR will not review any returns until we receive an email at DORMeFTest@mt.gov with all the required information submitted.

Testing Deadlines

Initial submissions for PTE testing must be received by December 16, 2024, and the testing completed by January 15, 2025.

Warning Messages

MT DOR has implemented warning messages to be used during the ATS process in conjunction with the reject codes. The warning messages are intended to assist in testing prior to sending your test submission email to MT DOR.

Warning messages will not reject your submissions, however, they must be resolved before notifying MT DOR that test submissions are ready to review.

Submitting ATS Test Cases

All the warning messages and reject codes must be cleared. After the accepted acknowledgment from MT DOR has been received for each test submission ID, send an email to DORMeFTest@MT.gov with the following information:

- Montana Form name (PTE - Montana Pass-Through Entity Return)
- Name of the software company
- Name of software product
- State submission IDs and ATS Test number for the ID
- A pdf return must be provided for each submission ID.
- ETIN and test return number in the file name. (Example: 125345Test2.pdf)
- Provide all test case information at the same time. Partial submissions will not be reviewed.
- **Do not** send your test information to MT DOR until all the warning messages and reject codes are resolved and you receive an acknowledgment of their acceptance.

Once MT DOR receives the email with the required information, a tester will be assigned to complete the review. Testing is assigned on a first-come, first-serve basis. You will receive an email when your submission has been assigned a tester. Reviews will be completed, generally, within 5-7 business days from the date a tester was assigned.

When the review is complete, MT DOR will send the submitter a test summary document identifying any needed corrections. After all corrections are made by the developer, ATS test cases can be resubmitted for review.

File Transfer Service

In some instances, the email with the test returns will not make it through to the DORMeFTest . If you're having trouble with emails, there's the option of sending your files securely through ePass Montana at transfer.mt.gov. Contact DOR Testing Support at DORMeFTest@mt.gov for more information.

Resubmitting failed ATS test cases

- You will only need to resubmit tests that were identified with failures on the Test Summary unless you are notified otherwise.
- Make all corrections identified on the Test Summary
- Do not resubmit until all your questions are answered. Partial submissions will not be reviewed.
- **Do not send your resubmission email until all the warning messages and reject codes have been resolved and after you have received an acceptance acknowledgment from MT DOR for each of the submission IDS.**
- The error tables at the end of the document will provide answers to the errors you may encounter on your initial submissions. The error messages are intended to assist you with the self-testing process. Should a return continue to have errors, we will provide more detailed feedback.

Test cases

- This document includes three (3) test cases.
- **Each test scenario will include a completed copy of each test case return. Fields that are indicated by a highlighted box are left blank. We intend for you to provide the calculated result for these fields.**
- The highlighted fields have a single correct value.
- A synopsis is included at the beginning of each test case which provides the required forms, attachments, and schedules.
- The Test Case values are the minimum amount of information expected. You can test any additional scenarios or values in your systems, but Test Cases with values that are different than the required values or with values in fields that are not highlighted will not be reviewed.

PTE Error Messages

The following table provides the answers we will provide to errors we may encounter on your initial submissions. The error messages are intended to assist you with the self-testing process. Once a submission has passed the initial Tests, or if a return continues to have errors, we will provide detailed feedback.
