Use Form 29 to report the tax on oil and gas produced in Idaho. We tax oil and gas at the rate of 2.5% of gross income. Gross income means the amount realized by the producer for the sale of oil or gas, whether the sale occurs at the wellhead or after transportation of the product, without deducting transportation, manufacturing, and processing costs.

The tax is paid monthly and the form is due by the 20th day of the month following the end of the reporting month.
