KRS 154.26-010 to 125

# **KIRA**

- ♦ Only use this package if you have received final approval for the KIRA credit per KRS 154.26-010 to 125 by the Cabinet for Economic Development.
- ♦ See instructions.
- ♦ Attach to form 720, 720S, 765, 765-GP, or 725.

**Purpose of Package** – Use this package to report KIRA tax incentives for which your business entity has been approved per KRS 154.26–010 to 125. You must have received preliminary or final approval in accordance with KRS 154.26 to determine the credit allowed. Schedule KIRA-T is used by the company which has entered into a tax incentive agreement for a Kentucky Industrial Revitalization Act (KIRA) project to maintain a record of the approved costs, wage assessment fees, and tax credits.

**General Instructions** – Only include one incentive project per Package KIRA. If your business entity files a form 720 with the state of Kentucky, you must complete Schedule KIRA (Page 3) and Schedule KIRA-T (Page 7). If your business entity files form 720S, 765, 765–GP, or 725, you must complete Schedule KIRA-SP (Page 5) and Schedule KIRA-T (Page 7).

First and Last Year Prorations—Tax incentives are only available to be claimed during the term of the incentive agreement. Tax incentives claimed during the first and last years of an incentive agreement must be prorated accordingly. Separate period accounting is recommended, but a proration factor may be used if separate period accounting is not available.

To determine the proration factor in the first year of the incentive agreement, divide the number of days from the activation date until the end of your taxable year by the total number of days in your taxable year. Multiply the total income by the proration factor to determine the project income when separate period accounting is not available.

To determine the proration factor in the last year of the incentive agreement, divide the number of days from the first day of your taxable year through the end of the incentive agreement term by the total number of days in your taxable year. Multiply the total income by the proration factor to determine the project income when separate period accounting is not available.

## TAX CREDIT COMPUTATION SCHEDULE (FOR A KIRA PROJECT OF A CORPORATION)

2018

#### **Taxable Year Ending**

	Enter allowable credit on Schedule TCS, Part I, Column E	and Column F			

➤ Economic development project means a project authorized under the Kentucky Rural Economic Development Act (KREDA), Metropolitan College ConsortiumTax Credit (MCC), Kentucky Small BusinessTax Credit Program (KSBTC), Kentucky Industrial Development Act (KIDA), Kentucky Jobs Retention Agreement (KJRA), Kentucky Industrial Revitalization Act (KIRA), Kentucky Jobs Development Act (KJDA), Kentucky Business Investment Program (KBI), Kentucky Reinvestment Act (KRA), SkillsTraining Investment Credit Act (STICA), and Incentives for Energy Independence Act (IEIA).

The KIRA tax credit is applied against the corporation income tax imposed by KRS 141.040 and/or the limited liability entity tax (LLET) imposed by KRS 141.0401. The amount of tax credit against each tax can be different; however, for tracking purposes, the maximum amount of credit used against either tax is the amount that is used for the tax year.

**PURPOSE OF SCHEDULE**—This schedule is used by a corporation to determine the credit allowed against the Kentucky corporation income tax and LLET attributable to the project per KRS 141.403.

#### **GENERAL INSTRUCTIONS**

#### Part I—Computation of LLET Excluding KIRA Project

Line 2—Use Schedule L, Line 1(b) of Form 720 to compute the LLET of the KIRA project using only the Kentucky gross receipts and Kentucky gross profits of the project. If approved for multiple projects, attach a breakdown of each project's LLET computation. In the first and last years of each project, only calculate Kentucky gross receipts and gross profits received during the term of the incentive agreement.

If the corporation has operations other than the KIRA project, it must attach schedules reflecting the computation of Kentucky gross profits and Kentucky gross receipts from the KIRA project per KRS 141.403(6) (b)\*\* or KRS 141.403(7)(b).\*\*\*\*

### Part II—Computation of Taxable Net Income Excluding Net Income from KIRA Project and KIRA Tax Credit

#### **Section B**

Line 2—Enter net income for KIRA project. If the corporation's only operation in Kentucky is the KIRA project, the amount entered on Line 1 must also be entered on Line 2. If the corporation has operations other than the KIRA project, it must attach schedules reflecting the computation of the net income from the KIRA project per KRS 141.403(6)(a)\* or KRS 141.403(7) (a).\*\*\* In the first and last years of each project, only calculate Kentucky net income received during the term of the incentive agreement.

See form for computation.

#### Part III—Limitation

Calculate KIRA tax credit based on the corporation's tax liability, tax liability attributable to KIRA project, and credit limitation from Schedule KIRA-T. Enter credit on Schedule TCS, Part I, Column E and Column F.

A corporation with more than one economic development project must separately compute the tax credit derived from each project. Complete the applicable tax computation schedules (KREDA, KIDA, KJRA, KIRA, KJDA, KBI, KRA, or IEIA) for each project. A corporation approved for the Skills Training Investment Credit Act (STICA) or Metropolitan College Consortium Tax Credit (MCC) must attach a copy of the certification(s) from the

Bluegrass State Skills Corporation. A corporation approved for the Kentucky Small Business Tax Credit Program (KSBTC) must attach a copy of the certification from the Kentucky Economic Development Finance Authority.

Alternative Methods—Per KRS 141.403(8), if the approved company can show that the nature of the operations and activities of the approved company are such that it is not practical to use separate accounting to determine net income, Kentucky gross receipts, or Kentucky gross profits from the facility where the project is located, the approved company must determine net income, Kentucky gross receipts, or Kentucky gross profits attributable to the project using an alternative method approved by the Department of Revenue. Thus, if any method other than separate accounting is used, a copy of the letter from the Department of Revenue approving the alternative method must be attached to this schedule.

- \* Per KRS 141.403(6)(a), if the project is a totally separate facility, net income attributable to the project shall be determined by the separate accounting method.
- \*\* Per KRS 141.403(6)(b), if the project is a totally separate facility, Kentucky gross receipts or Kentucky gross profits attributable to the project shall be determined under the separate accounting method reflecting only the Kentucky gross receipts or Kentucky gross profits directly attributable to the facility.
- \*\*\* Per KRS 141.403(7)(a), if the KIRA project is an expansion to a previously existing facility, net income attributable to the entire facility shall be determined under the separate accounting method and the net income attributable to the KIRA project shall be determined by apportioning the separate accounting net income of the entire facility to the KIRA project income using a formula approved by the Department of Revenue. A copy of the letter from the Department of Revenue approving the percentage must be attached to this schedule.
- \*\*\*\* Per KRS 141.403(7)(b), if the KIRA project is an expansion to a previously existing facility, Kentucky gross receipts or Kentucky gross profits attributable to the entire facility shall be determined under the separate accounting method and the Kentucky gross receipts or Kentucky gross profits attributable to the KIRA project shall be determined by apportioning the separate accounting Kentucky gross receipts or Kentucky gross profits of the entire facility to the KIRA project Kentucky gross receipts or Kentucky gross profits. A copy of the letter from the Department of Revenue approving the percentage must be attached to this schedule.

TAX PAYMENT SUMMARY (Make check payable to Kentucky State Treasurer.)

TOTAL \_

**PURPOSE OF SCHEDULE**—This schedule is used by a passthrough entity to determine the credit allowed against the Kentucky income tax and LLET attributable to the project per KRS 141.403.

Pass-through entities should first complete Form 720S, 765, or 765-GP to determine net income (loss), deductions, etc., from the entire operations of the pass-through entity. The pass-through entity should then complete Schedule KIRA-SP to determine the KIRA tax credit and the tax due, if any, from the KIRA project. A pass-through entity is subject to tax per KRS 141.020 and KRS 141.0401 on the net income and the Kentucky gross receipts or Kentucky gross profits from the KIRA project and the KIRA credit is applied against the tax of the KIRA project. Consequently, the pass-through entity must use Form 720S(K), Form 765(K), or Form 765-GP(K) to exclude the net income from the KIRA project from the partners', members', or shareholders' distributive share income, and Schedule L, Line 1(b) of Form 720S, Form 765, or Form 725 to exclude Kentucky gross receipts or Kentucky gross profits of the KIRA project from LLET at the entity level.

**Multiple Projects**—A pass-through entity with multiple economic development projects must complete the applicable schedules (KREDA-SP, KIDA-SP, KJRA-SP, KIRA-SP, KJDA-SP, KBI-SP, KRA-SP, or IEIA-SP) to determine the credit and net tax liability, if any, for each project.

Line 1—If the pass-through entity's only operation is the KIRA project, the amount entered on Line 1 is the net income (loss) from Form 720S, 765, or 765-GP. If the pass-through entity has operations other than the KIRA project, a schedule must be attached reflecting the computation of the net income (loss) from the KIRA project in accordance with the following instructions, and such amount entered on Line 1. In the first and last years of each project, only calculate Kentucky taxable income received during the term of the incentive agreement.

**Separate Facility**—Per KRS 141.403(6), if the project is a totally separate facility, net income, Kentucky gross receipts, and Kentucky gross profits attributable to the project must be determined by a separate accounting method.

Expansion of Existing Facility—Per KRS 141.403(7), if the KIRA project is an expansion to a previously existing facility, the net income, Kentucky gross receipts, and Kentucky gross profits must be determined under a separate accounting method reflecting the entire facility, and the net income, Kentucky gross receipts, and Kentucky gross profits must be determined by apportioning the net income, Kentucky gross receipts, and Kentucky gross profits of the entire facility to the economic development project by a formula approved by the Department of Revenue. A copy of the letter from the Department of Revenue approving the percentage must be attached to the schedule.

Alternative Methods—Per KRS 141.403(8), if the approved company can show that the nature of the operations and activities of the approved company are such that it is not practical to use a separate accounting method to determine the net income, Kentucky gross receipts, and Kentucky gross profits from the facility where the economic development project is located, the approved

company must use an alternative method approved by the Department of Revenue. A copy of the letter from the Department of Revenue approving the alternative method must be attached to this schedule.

Separate Accounting—If the economic development project is a totally separate facility, net income must reflect only the gross income, deductions, expenses, gains, and losses allowed under this chapter directly attributable to the facility and overhead expenses apportioned to the facility; and Kentucky gross receipts or Kentucky gross profits must reflect only Kentucky gross receipts or Kentucky gross profits directly attributable to the facility.

If the economic development project is an expansion to a previously existing facility, net income of the entire facility must reflect only the gross income, deductions, expenses, gains, and losses allowed under this chapter directly attributable to the facility and overhead expenses apportioned to the facility; and Kentucky gross receipts and Kentucky gross profits must reflect only Kentucky gross receipts and Kentucky gross profits directly attributable to the facility. Net income, Kentucky gross receipts, and Kentucky gross profits of the entire facility attributable to the economic development project must be determined by apportioning the net income, Kentucky gross receipts, and Kentucky gross profits by a formula approved by the Department of Revenue.

**Line 2**—Enter the net operating loss from the KIRA project, if any, being carried forward from previous years.

**Note**: Just as the income from a KIRA project does not flow through to partners, members, or shareholders, neither do the losses. The project's net operating loss from prior years must be subtracted from the project income before calculating the KIRA credit.

**General Partnership**—Lines 5 and 6 of this schedule should not be completed by a general partnership as a general partnership is not subject to LLET.

Line 5—Use Schedule L, Line 1(b) of Form 720S, Form 765, or Form 725 to compute the LLET of the KIRA project using only the Kentucky gross receipts and Kentucky gross profits of the project. If approved for multiple projects, attach a breakdown of each project's LLET computation. In the first and last years of each project, only calculate Kentucky LLET received during the term of the incentive agreement.

Line 9—In lieu of the tax credit, the approved company may elect, on an annual basis, to apply as an estimated tax payment an amount equal to the allowable tax credit. Any estimated tax payment must be in satisfaction of the tax liability of the partners, members, or shareholders of the pass-through entity, and must be paid on behalf of the partners, members, or shareholders. Enter an amount on either (a) or (b), but in no case should there be an entry on both (a) and (b). Per KRS 141.403(5), this estimated tax payment is excluded in determining each partner's, member's, or shareholder's distributive share income or credit from a pass-through entity. Accordingly, the partners, members, or shareholders are not entitled to claim any portion of this estimated tax payment against their Kentucky income tax liability.

<sup>\*</sup> Corporation license tax was repealed effective for tax periods ending on or after December 31, 2005.

PURPOSE OF SCHEDULE—This schedule is used to maintain a record of the approved costs, wage assessment fees and income, LLET and license tax\* credits for the duration of the revitalization agreement. This information is necessary for the company to determine the limitation of the tax credit for each year of the revitalization agreement and to allow the Kentucky Department of Revenue to verify that the credit has been properly computed.

#### **GENERAL INSTRUCTIONS**

A single Schedule KIRA-T, Tracking Schedule for a KIRA Project, must be maintained for the duration of each KIRA project. Beginning with the first taxable year of the KIRA revitalization agreement, complete Columns A through E using a separate line for each year of the revitalization agreement. The company must attach a copy of this schedule updated with current year information to the Schedule KIRA or Schedule KIRA-SP which is filed with the Kentucky tax return.

All tax credits are entered on Schedule TCS, Tax Credit Summary Schedule. The total tax credits calculated may exceed the amount that can be used. Credits must be claimed in the order prescribed by KRS 141.0205. Total credits claimed cannot reduce the LLET below the \$175 minimum nor the income tax liability below zero.

#### SPECIFIC INSTRUCTIONS

**Column A**—Enter on each line the ending date (month and year) of the taxable year for which the information requested in Columns B through E is entered.

**Column B**—For the taxable year that includes the revitalization agreement date, enter 50 percent or 75 percent of the approved costs as verified by the Kentucky Economic Development Finance Authority. Refer to your

agreement for the applicable percentage. For each year thereafter, if the amount entered in Column D for the prior year exceeds the combined total of income tax credit and corporation license tax credit claimed for the prior year in Column E, enter the difference.

**Column C**—Enter the total amount of employee wage assessments (both the state and local portion) withheld from the salaries of employees during the taxable year, or the appropriations received during the taxable year if an appropriation agreement was entered into in lieu of utilization of the wage assessment.

**Column D**—Enter the result of subtracting the amount entered in Column C from the amount entered in Column B. Also, enter on Schedule KIRA, Part III, Line 2 or Schedule KIRA-SP, Part I, Line 8, whichever is applicable.

**Column E**—The tax credit calculated for each tax can be different; however, for tracking purposes, the maximum amount used against either tax is recorded as amount claimed. Enter the greater of Column E or Column F from Schedule TCS for this project.

<sup>\*</sup>Prior to January 1, 2006, KIRA tax credits were applied against corporation license tax. The tax was repealed effective for tax periods ending on or after December 31, 2005. KIRA credit used to offset license tax prior to that effective date must be reported on the Schedule KIRA-T.
