The railroad maintenance and improvement credit per KRS 141.385 is a nonrefundable credit that can be applied against the income taxes imposed by KRS 141.020 or 141.040, and the limited liability entity tax (LLET) imposed by KRS 141.0401. The tax credit must be used in the tax year of the qualified expenditures which generated the tax credit and cannot be carried forward to a return for any other period. If a qualified expenditure qualifies for both the railroad maintenance and improvement credit per KRS 141.385 and the railroad expansion tax credit as per KRS 141.386, the taxpayer must claim either the credit per KRS 141.385 or the credit per KRS 141.386, but not both.

Purpose of Schedule—This schedule is used to compute the railroad maintenance and improvement credit. An eligible taxpayer means: (i) the owner of any Class II railroad or Class III railroad located in Kentucky; or (ii) any person who transports property using the rail facilities of a Class II railroad or Class III railroad located in Kentucky or furnishes railroad—related property or services to a Class II railroad or Class III railroad located in Kentucky, but only with respect to miles of railroad track assigned to the person by a Class II railroad or Class III railroad for purposes of the tax credit.

Class II railroad means a railroad company classified as a Class II carrier by the federal Surface Transportation Board.

Class III railroad means a railroad company classified as a Class III carrier by the federal Surface Transportation Board.

Qualified expenditures means expenditures, whether or not otherwise chargeable to a capital account, that are made to maintain or improve railroads located in Kentucky, including roadbeds, bridges, and related structures, that are owned or leased as of January 1, 2008, by a Class II or Class III railroad.

The railroad maintenance and improvement tax credit is an amount equal to 50% of the qualified expenditures paid or incurred by the taxpayer during the tax year, but must not exceed the product of \$3,500 multiplied by the sum of: (i) the number of miles of railroad track in Kentucky owned or leased by the eligible taxpayer as of the close of the taxable year; and (ii) the number of miles of railroad track in Kentucky assigned per KRS 141.385 to the eligible taxpayer by a Class II railroad or Class III railroad which owns or leases the railroad track as of the close of the taxable year.

If a credit is taken per KRS 141.385(2), the basis of the track must be reduced by the amount of credit taken.

#### Part I-Qualifications

Qualified expenditures must be made on property that was owned or leased on January 1, 2008, by a Class II or Class III railroad. If a tax credit was claimed per of KRS 141.385 or 141.386 by another taxpayer on the same qualified expenditures, you do not qualify for this credit.
