

**The following notes may be helpful for your 2021 development efforts.**

- Updated 1D barcodes.
- **Forms 740 & 740-NP:** updated standard deduction, removed income tax gap tax credit, replaced with the Education Opportunity Account Program credit.
- **Schedule ITC:** Added Renewable Chemical Production Credit, removed Income Gap credit references, and updated the Family Size table.
- Removed Bank Of America prepaid debit card references. Receiving refunds on this card is no longer an option.
- We intend to have all drafts forms posted no later than July 31, 2021. Instruction packages will follow later this summer.
- Updated Federal forms have not been posted at this time so there may be line reference changes, limitation amounts updates and some lines on the 740-NP may be changed to Reserved along with the Schedule A. Items may be marked "RESERVED" if items such as Qualified Mortgage Insurance Premiums are not extended.
