This worksheet has been created to reflect the recovery of certain income tax credits pursuant to Acts 109 and 125 of the 2015 Regular Session of the Louisiana Legislature. Section 3(C) of Act 109 and Section 7 of Act 125 allows a recovery of the credit amount reduced by the Acts if your return was filed after July 1, 2015, for which a timely extension was requested prior to July 1, 2015. One-third of the portion of the credit that was reduced by the Acts is allowed as a credit on the return for each of the taxable years beginning during 2017, 2018, and 2019. This worksheet must be used in completing your income tax return for 2017, 2018, and 2019. A copy of this worksheet must be attached to each return when filed. Round all amounts to the nearest dollar according to the instructions for Columns 4, 5, and 6. See Revenue Information Bulletin 17-018 for more information.

All references to Schedule NRC applies to CIFT-620, IT-541 and R-6922 unless otherwise stated. The same also applies to references to Schedules NRC-P3 and RC-P2.

General Instructions

Mark the "2015 Legislation Recovery" box on the first page of your return if you are claiming any of the recoveries allowed under Acts 109 and 125 of the 2015 Regular Legislative Session. To complete this worksheet, you will need Forms R-620CNR, R-620CRW, and R-540-G1 that was attached to your return that was filed after July 1, 2015.

Column 2 – For each reduced credit that you claimed on your return, enter the amount from the "Amount Prior to Act 125 Reduction" column of Forms R-620CNR and R-620CRW. For nonrefundable credits, this amount is limited to the credit amount that would have reduced tax. For example, if your nonrefundable credits prior to reduction totaled \$7,000 and your tax liability was \$6,000, the total of Column 2 is limited to \$6,000. A recovery is not allowed for nonrefundable credit amounts that exceeded tax.

Column 3 – For each reduced credit that you claimed on your return, using Forms R-620CNR and R-620CRW subtract the amount in the "Amount allowed under Act 125" from the amount in the "Amount Prior to Act 125 Reduction" column and enter the result on the appropriate line or credit code under Column 3. For nonrefundable credits, Column 3 is limited to amounts that would have reduced tax.

Columns 4 and 5 – To determine the recovery amount to claim in 2017 and 2018, divide Column 3 by three and round to the nearest dollar. Enter the result in both Columns 4 and 5. See example below.

Column 6 – To determine the recovery amount to claim in 2019, subtract Columns 4 and 5 from Column 3. See example below.

Example: Assume Column 3 is \$7. The \$7 divided by three equals \$2.33. The \$2.33 should be rounded to \$2.00 and entered in Columns 4 and 5. Since \$7 minus \$2 minus \$2 equals \$3, \$3 would be entered in Column 6.

IMPORTANT! The amount entered in Column 4 should be reported on your 2017 return, Column 5 on your 2018 return and Column 6 on your 2019 return. Retain copies of this worksheet to attach to your 2018 and 2019 return.
