Purpose of Form Maryland law provides for an extension of time to file the pass-through entity income tax return (Form 510), but not to pay the tax due. Use Form 510E to remit any tax that may be due. Also use Form 510E if this is the first filing of the entity, even if no tax is due.

Note: Do not use this form for:

- Corporations (except S corporations);
- Entities filing a Composite Return; or,
- Employer withholding tax.

General Requirements Extensions are allowable for up to seven months from the original due date for S corporations and up to six months from the original due date for all other pass-through entities. An automatic extension will be granted if Form 510E is filed by the original due date.

- If no tax is due File the extension online or telefile.
 You must use Form 510E if this is the first filing of the entity.
- If tax is due Make full payment by using Form 510E.

Do not mail the Form 510E if, after completing the Tax Payment Worksheet, no additional tax is due. Instead, you may telefile or file on our website unless this is the first filing of the pass-through entity. However, if an unpaid liability is disclosed when the return is filed, penalty and interest charges may be due in addition to the tax.

When to file File Form 510E by the 15th day of the fourth month following the close of the tax year for all pass-through entities.

Name, Address and Other Information Type or print the required information in the designated area.

Enter the exact pass-through entity name and continue with any "Trading As" (T/A) name, if applicable.

Enter the Federal Employer Identification Number (FEIN). If a FEIN has not been secured, enter "APPLIED FOR" followed by the date of application. If a FEIN has not been applied for, do so immediately.

Check the applicable box for type of entity.

Tax Year or Period Enter the beginning and ending dates of the tax year in the space provided if the tax year is other than a calendar year.

The same tax year or period used for the federal return must be used for Form 510E.
