NOTE: Form 165 must be used to amend tax years prior to 2015.

Use this form to correct the *2020 Sales, Use and Withholding Taxes Monthly/Quarterly Return* (Form 5080) that was initially filed for the tax period. Monthly Filer

- If the tax is less than \$9, calculate the discount by multiplying the tax by 2/3 (.6667).

- If the tax is more than \$1,200 and paid by the 12th, calculate discount using this formula: (Tax x .6667 x .0075). The maximum discount is \$20,000 for the tax period.

Credit Schedules

- E-file only credit schedules (Form 5083, 5085 and/or 5086) include specific discount calculations. See respective schedule form instructions for more information. If filing a credit schedule with a monthly/quarterly return, calculate the allowable discount on sales tax separate from the sales tax discount calculated on the credit schedule. Sum both sales tax discount amounts and enter on line 5 of this form.

PART 2: USE TAX ON ITEMS PURCHASED FOR BUSINESS OR PERSONAL USE

How to Compute Penalty and Interest

If the return is filed late with tax due, include penalty and interest with the payment. Penalty is 5% of the tax due and increases by an additional 5% per month or fraction thereof, after the second month, to a maximum of 25%. Interest is charged daily using the average prime rate, plus 1 percent.

Refer to www.michigan.gov/taxes for current interest rate information or help in calculating late payment fees.
