

INFORMATION MANAGEMENT BUREAU

Date: January 30, 2024

To: Individual Income Tax Software Vendors

Good afternoon,

Montana had a system issue that is causing 2023 Form 2 MeF submissions to reject, if their Federal EITC value exceeds last year's threshold. We have corrected the issue.

Unfortunately, we are unable to reprocess any submissions that rejected, vendors will need to resubmit. We will reach out to vendors as we notice rejected submissions caused by this issue.

For any questions, please email dore-services@mt.gov.
